

Art Supply List for 2020 - 2021

In keeping with the COVID-19 guidelines, students will not be sharing art supplies for now. We're asking you to add a few items to your child's pencil box to use during art class this year. You do not need to purchase duplicates of items already on your child's general class supply list (for example, the same pack of markers can be used for both the classroom and art classes), unless it's specified that you will need a few extras. Thank you for your help in keeping the art program running during these challenging times.
