SUMMER READING

Hello :

Over the summer you will be required to read at least 2 of the following books. Reading during summer break is to ensure that you (our students) continue learning and expanding your vocabulary in and out of the classroom. The ability to choose the books you are reading allows you to have a bit more control over the assignment. You can pick 2 of the books from the list that interest you.

After you have read your chosen books, you will need to complete the following basic chart to ensure that the reading was actually completed. I understand that some of these books also have movies and you may opt to watch the movie instead of reading the book. A bit of advice, it will be in your best interest to read the book completely in order to complete the assignment.

Once you have completed the basic chart, you will need to write a 2 full page compare and contrast paper. You will be comparing the two books you read over the summer. Based on the similarities and differences of their main characters, side characters, storylines, etc. The format of the paper should be double spaced, 12 point font, Times New Roman.

The fully completed and signed chart and the 2 page paper are due the second Monday of school in September.

Happy Summer,
Miss Mel
